DETAILED ACTION

1. This action is responsive to communications of application received 10/24/2005.
2. The disposition of the claims is as follows: claims 1-23 are pending in the application.

Claims 1, 11 and 21 are independent claims.

Allowable Subject Matter

3. Claims 1-23 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's independent claims 1, 11 and 21 stand novel over the related prior art. For instance, while the related art of "Shade a surface with its draft angles", entry AF of information disclosure statement received 10/24/2005, teach shading a shading mode where parts of a surface are in-draft and out-of-draft for a specified pull vector and draft angle. In-draft points are shaded blue, out-of-draft points are shaded red. Whereas the instant invention causes a modeled object to be displayed with colors to indicate draft angles relative to the pull direction at various locations of the modeled object, employing a color map specifying a spectrum of colors for a plurality of trigonometric values of draft angles. In contrast, "Shade a surface with its draft angles" teaches shading for a specified draft angle with the colors red and blue, while the instant invention discloses shading for a plurality of trigonometric values of draft angles with a color map specifying a spectrum of colors.

Therefore as claimed by the combined elements of independent claims 1, 11, and 21, the cited references and prior art of record lack separately and in combination the elements of said claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
